

You are managing your dance club's Instagram account and are creating a post to promote the upcoming dance workshop. The content below must be included directly in your post (and not just in the caption).

- Title: Intro to Dance Workshop
- Location: The Dancehouse San Diego
- Time: Friday, August 19 at 5PM
- Instructor: Kaycee Smith
- Tagline: Come join us for a fun, beginner-friendly dance workshop!

Requirements:

- Use of templates is not allowed, you must create the post from scratch
- Must include ALL the information in the Text section
- Must include exactly 1 main graphic (from the Images/Graphics sections)
- Feel free to use more of the decorative elements (from the Graphics/Elements sections)

Your goal is to work towards a design that is visually appealing, effectively communicates event details, and meets the provided requirements. Please start by approximately placing all the content on the canvas before making smaller design changes. We look forward to seeing your design process!

While designing, also use this as an opportunity to learn to develop your design skills. Please talk aloud as you design, describing your thought process in generating your design.
